

NEW! On-line Ordering App: Tapingo

Manoa Dining Services has partnered with Tapingo, a popular online ordering app, to help the UHM community save time everyday! Anyone can order their favorite meals or drinks ahead of time at Starbucks or Jamba Juice for pick-up through an easy-to-use, safe and secure iPhone/Android Application. Use your normal UH login and password to access your dining account and also add a credit card payment method if preferred.

The advertisement features a smartphone displaying the Tapingo app interface on the left. To its right is a large orange graphic with the Tapingo logo and the slogan "Wait less. Live more." Below the slogan are three circular icons with arrows pointing to the text: "Download Tapingo", "Register Your Dining Account or Credit Card", and "Order, Pickup & Enjoy!". In the top right corner of the graphic is the "MANOA DINING SERVICES" logo. At the bottom of the graphic, a dark banner reads "Now you can order ahead and skip the lines!". Below the graphic, the text "Starting with these featured locations:" is followed by the Starbucks and Jamba Juice logos. At the very bottom, a dark banner says "For more information visit UHMDining.com".

Using Tapingo (which is free to download), students, faculty, and staff can browse menus, customize orders, pay, then have their items available for pickup. Tapingo makes eating on campus easier and more convenient than ever before. Once an order is ready, Tapingo sends a text notification to the user, who can avoid waiting in line and head straight to the counter for pickup. Embodying the Tapingo lifestyle of “wait less, live more” Tapingo’s technology is so advanced that the app remembers personalized choices (extra shot of espresso, non-fat milk) for one-tap reordering.

Tapingo accepts:

- All major Credit Cards
- Meal Plans
- Dining Dollars
